Course Overview

This is a course to expand knowledge and become more involved in the technical theatre world. This course focuses on essential technical theatre vocabulary and an understanding of roles and responsibilities of a theatre production team through hands-on projects. Students will demonstrate their ability to produce and create scenery, costumes, scenic painting, make-up, lighting tools, and an introduction to theatrical drafting and expanding on safety issues. This course is going to focus on the paperwork of the technical theatre world. Understanding the different plan views of the design processes, and building 3-D models along with the comprehension of hand drafting in the theatrical world.

Materials and Lab Fee

There is a \$25 lab fee required by each student. This fee will pay for building materials, tools and supplies used in class for the year. **Checks should be made out to PHS Drama Boosters.**

***As an Option:** Students can pay \$40 which then would cover their \$25 lab fee, and students Fall & Spring play tickets that the student is required to come see, which would be a discount, rather than paying at the door. This option is not required, and the tickets can still be purchased at the door, rather than in advanced.

Again,

Checks should be made out to
PHS Drama Boosters

Also needed for the course:

- 1” 3-Ring Binder.
- Alternative clothing (for building and painting)
- Close-toed shoes
- Notebook paper
- Pencil (mechanical is preferable)
- **Architect** Scale Ruler

Classroom Rules and Expectations

1. Horseplay and inappropriate behavior in the shop, around tools, or while using equipment will NOT be tolerated. If this occurs, the student will be asked to sit for the remainder of the class and the instructor will contact the parents. The student(s) will sit out for more classes until deemed to be trusted to work with tools or in the shop. While sitting out the student will be given an alternate assignment to be completed in their seat to receive credit for that day. If not completed student will receive a “0” for that day class participation.
2. Students should be in their assigned seat by the time the bell rings. If you are in the room and not in YOUR seat then that will count as an in-class tardy. Three in-class tardies will result in a tardy and the student will be expected to go to SMC to receive a late pass.
3. Talking while the instructor is giving instruction or directions will not be tolerated.
4. It is suggested that all students bring alternate clothing for building and painting that can get dirty, stained, or painted. Clothing may be left at school and taken home occasionally to wash. You are required to wear appropriate footwear at all times. The teacher is not responsible for clothing that has gotten ripped or stained if alternate clothing was not worn. Students must wear closed toed shoes while working in class. Students that are not wearing will not be able to participate and receive a “0” for that days participation grade.
5. Students will respect all property of the theatre department including all tools, textbooks, and visual materials. Damage to any property caused by inappropriate use will require the student to replace damaged equipment.
6. No student is permitted in the shop, technical booth, in the instructor’s office, or backstage without permission of instructor.
7. Food, candy, gum and beverages (other than water) are not permitted in the theatre, shop or backstage.
8. Cellphones, tablets, and other electronics must remain off and out of sight, unless instructed by the teacher for classroom instructional use only. If seen, or heard, without permission, school cell phone rules will be enforced.
9. Respect each other!

Grade Scale

Course Outline and Grade Breakdown

- . A= 100-90
- . B= 89-80
- . C= 79-70
- . D= 69-60
- . F= 59 and below

FORMAL 70% of Overall Grade

Crew Hours (Formal)

All students in Intermediate Tech Theatre are required to work **2**

Events outside of the Theatrical show each semester (i.e. chorus

concert, play, NHS Inductions, etc.) As a class, we will schedule those events at the beginning of each semester.

Written Critiques (Formal)

Each student will write two technical theatre critiques per semester. One will be for the PHS main stage performance, and the other one will be for a **theatrical performance** outside of the school.

Critiques will be turned into Google Classroom (85%), and the ticket stub (15%) will be turned in ON the due date.

Design and Technical Projects (Formal)

A major part of this course will be the students working on hands on projects such as, but not limited too:

- ◆ Building Platforms and Stairs
- ◆ Homework
- ◆ Creating props
- ◆ Designing sets
- ◆ Creating lighting plots
- ◆ Creating Costumes
- ◆ Working with tools
- ◆ Reading ground plans, elevations, and section drawings
- ◆ Intro to Theatrical Hand Drafting
- ◆ Building scenic models
- ◆ Digital Portfolio

INFORMAL 30% of Overall Grade

Exams and Pop Quizzes (Informal)

Because the majority of this course is focused on the students working hands-on, exams in the course are focused on terminology and the students knowledge of objects that are working with in the shop or classroom. This excludes the Midterm and Final Exam.

Class Participation (Informal)

Students are required to participate in all design, construction, and strike of PHS production and events. Non-participation when asked will significantly affect your grade. A participation grade is recorded daily. (20 pts. per class, so 5 classes equal 100 pts.)

Late and Make-up Work

Make up

Make-up work for written assignments is permitted and will be graded for full credit provided that it is turned in within five (5) days after a student returns to school. Performance work that is missed must be made up the day the student returns to class. It is the student's responsibility to request work missed and to turn in or perform within the above guidelines. Missed tests must be made up either before or after school. If a student gets below an 70% on project or test, the student will be allowed to retake, or correct the project for no more than an 80%. **The student must initiate the corrections, and set a timeline with the instructor to be approved.**

Late Work

Late work will be accepted and receive full credit if student has an excused absence, but must be turned in the next class day. Otherwise, five percent (5%) will be deducted from the total points for that assignment **everyday** (not every class day) after original due date, including weekend if the assignment is to be turned in online. If the assignment is more than 5 class days late, a "0" will be given for that assignment.

Technology In the Classroom

Most of the class will be paperless and the students will need access to:

- Google Classroom

This Site will be used to turn in assignments, receive handouts, or take quizzes. This Site will require the student to use their school account to access, and turn in assignments. I will cover this with students the first couple of weeks.

Google Classroom Code: _____

- www.richardturski.weebly.com

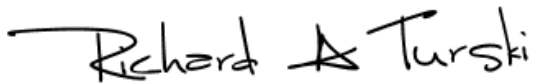

This site will be the central hub where students, and parents can find information, syllabus, worksheets, handouts, project rubrics, and anything needed for the class.

Website: www.richardturski.weebly.com

Finally,

This will be my seventh year here at Providence High School and I have been really excited to work in such a great program, great school, with such a great community. I will learn just as much from each student as I plan to teach him or her. I also plan on building strong relationships with the parents so the children get the best education possible. So please, if you have any questions please feel free to email me, call me, or schedule a meeting with me, and I will get back to you promptly with the information you have requested. Thank you ahead of time, and I really look forward to another great year.

Thank You,

Richard Turски

By filling out these forms online, I indicate that I understand and agree to all of the information and expectations included in this Technical Theatre class. I understand my child's responsibilities for the policies, which will be upheld during the 2019-20 school year.
